POLICY ON REMUNERATION TO SENIOR EXECUTIVES, proposed by the Board of Directors of AB Volvo to be adopted by the Annual General Meeting 2010. (Point 18 on the proposed agenda)

This Policy concerns the remuneration and other terms of employment for the Group Executive Committee of the Volvo Group. The members of the Group Executive Committee, including the President and any possible Executive Vice President, are in the following referred to as the "Executives".

This Policy will be valid for employment agreements entered into after the approval of the Policy by the Annual General Meeting and for changes made to existing employment agreements thereafter.

1 Guiding principles for remuneration and other terms of employment

The guiding principle is that the remuneration and the other terms of employment for the Executives shall be competitive in order to ensure that the Volvo Group can attract and retain competent Executives.

The annual report 2009 sets out details on the total remuneration and benefits awarded to the Executives during 2009.

2 The principles for fixed salaries

The Executive's fixed salary shall be competitive and based on the individual Executive's responsibilities and performance.

3 The principal terms of variable salary and incentive schemes, including the relation between fixed and variable components of the remuneration and the linkage between performance and remuneration

The Executives may receive variable salaries in addition to fixed salaries. The variable salary may, as regards the President, amount to a maximum of 65% of the fixed annual salary and, as regards the other Executives, a maximum of 50% of the fixed annual salary.

The variable salary may be based on i.a. the performance of the entire Volvo Group or the performance of the Business Area or Business Unit where the Executive is employed. The performance will be related to the fulfilment of various improvement targets or the attainment of certain financial objectives. Such targets will be set by the Board and may relate to i.a. operating income or cash flow.

The Board shall before each Annual General Meeting evaluate whether a share or share-price related incentive program shall be proposed to the Annual General Meeting or not. The Annual General Meeting decides upon such programs. The Board of Directors has decided not to propose to the Annual

General Meeting 2010 to resolve on any share or share-based incentive program relating to the financial year 2010.

The Executives are also participating in Volvo's Profit Sharing Program (VPS), which applies to the majority of the Volvo Group's employees and which can give a maximum individual result of SEK 8,500 per year, provided AB Volvo's return on equity (ROE) amounts to 20% or more. Results under VPS are principally placed in Volvo shares and they can be disposed of on the individual level after three years, at the earliest.

4 The principal terms of non-monetary benefits, pension, notice of termination and severance pay

4.1 Non-monetary benefits

The Executives will be entitled to customary non-monetary benefits such as company cars and company health care. In addition thereto in individual cases company housing and other benefits may also be offered.

4.2 Pension

In addition to pension benefits which the Executives are entitled to according to law and collective bargaining agreements, Executives resident in Sweden may be offered defined-contribution plans with annual premiums amounting to SEK 30,000 plus 20% of the pensionable salary over 30 income base amounts. In the defined-contribution plan, the pension earned will correspond to the sum of paid-in premiums and possible return without any guaranteed level of pension received by the employee. In the defined-contribution plan, no definite retirement date is set.

Some of the Executives have earlier been entitled to defined-benefit pension plans, but the majority of the Executives have re-negotiated these to the new system of defined-contribution plans. In connection therewith, agreements have in some cases been reached on individual adjusting premiums in accordance with actuarial calculations.

Previous pension agreements for certain Executives stipulated that early retirement could be obtained from the age of 60. Such agreements are no longer signed and the majority of the Executives that earlier were entitled to such defined-benefits pension plans have agreed to exchange these for defined-contribution plans without any defined point of time for retirement. The premium amounts to 10% of the pensionable salary plus individual adjusting premiums based on actuarial calculations in some cases.

Executives resident outside Sweden or resident in Sweden but having a material connection to or having been resident in a country other than Sweden may be offered pension benefits that are competitive in the country where the Executives are or have been resident or to which the Executives have a material connection, preferably defined-contribution plans.

4.3 Notice of termination and severance pay

For Executives resident in Sweden, the termination period from the Company will be 12 months and 6 months from the Executive. In addition thereto, the Executive, provided that termination has been made by the Company, will be entitled to 12 months severance pay.

Executives resident outside Sweden or resident in Sweden but having a material connection to or having been resident in a country other than Sweden may be offered notice periods for termination and severance payment that are competitive in the country where the Executives are or have been resident or to which the Executives have a material connection, preferably solutions comparable to the solutions applied to Executives resident in Sweden.

5. The Board's preparation and decision-making on issues concerning remuneration and other terms of employment for the Group Executive Committee

The Remuneration Committee is responsible for (i) preparing the Board's decisions on issues concerning principles for remuneration, remunerations and other terms of employment for Executives, (ii) monitoring and evaluating programs for variable remuneration, both ongoing and those that have ended during the year, for Executives, (iii) monitoring and evaluating the application of this Policy, and (iv) monitoring and evaluating current remuneration structures and levels in the Company.

The Remuneration Committee prepares and the Board decides on (i) terms of employment and remuneration of the President and the Executive Vice President, if any, and (ii) principles for remuneration (incl. pension and severance pay) for the Group Executive Committee. The Remuneration Committee shall approve proposals on remuneration of the members of the Group Executive Committee.

The Remuneration Committee is further responsible for the review and recommendation to the Board of share and share-price related incentive programs to be decided upon by the Annual General Meeting.

6. Deviations from this Policy

The Board of Directors may deviate from this Policy, except as regards section 3, third paragraph, if there are specific reasons to do so in an individual case.

7. Information on earlier decisions on remuneration that has not become due for payment at the time of the Annual General Meeting's consideration of this Policy

The decisions already taken on remuneration to the Executives that has not become due for payment at the time of the Annual General Meeting 2010 fall within the frames of this policy, except that some of the Executives have a right to receive 24 months severance pay provided they are above 50 years of age.
