The Meeting resolved to establish a new share-based incentive program during the second quarter of 2006 for senior executives in the Volvo Group. The program mainly involves that a maximum of 518,000 Series B shares in the Company could be allotted to a maximum of 240 senior executives, including members of Group Management,

during the first six months of 2007. The allotment shall depend on the degree of fulfillment of certain financial goals for the 2006 fiscal year and which are set by the Board. If these goals are fulfilled in their entirety and if the price of the Volvo B share at the time of allotment is SEK 370, the costs for the program will amount to about SEK 230 M. So that Volvo shall be able to meet its commitment in accordance with the program in a cost-efficient manner, the Meeting further resolved that Volvo may transfer own shares (treasury stock) to the participants in the program.
