VOLVO

AB Volvo

Volvo

In April 9,365 Volvo trucks were delivered, a decrease of 2% compared with the same month last year.

In Europe 3,504 vehicles were delivered during April, up by 3% compared with April 2013.

Demand in North America continued to be good and deliveries increased by 17% to 2,760 vehicles in comparison with the same period last year. Production will moderately increase at the end of the second quarter to meet increased demand.

April deliveries in South America decreased by 30% to 1,595 trucks compared with April 2013. The decrease is a consequence of lower demand as well as inventory reduction in the dealer channel. Production rates in Brazil have been reduced during the second quarter.

Deliveries by market area:

Delivered Units	April		Change	Year-to-date		Change
	2014	2013		2014	2013
