Press release

Truck deliveries in January 2015

Deliveries from the Volvo Group's truck operations in January 2015 amounted to 13,055 vehicles. This was a decrease of 4% compared with the year-earlier month.

Volvo Group

Deliveries in North America increased by 14% in January thanks to a continuously high demand due to fleet renewal and a good economic development in general while deliveries in Europe were at the same level as in January 2014. Deliveries declined by 66% in South America, primarily due to lower deliveries in Brazil. In Asia truck deliveries increased by 3%.
