

FUTURE URBAN SCENARIOS

Volvo Trucks. Driving Progress

Global challenges

- Climate change
- Growing population
- Road safety

A nighttime photograph of a city street with several tall, illuminated skyscrapers. The buildings have glowing windows and are lit up from within. In the foreground, there are streetlights and light trails from moving vehicles, creating a sense of motion. The overall scene is vibrant and modern.

**Safe
Efficient
Sustainable**

Volvo Trucks. Driving Progress

Technology is driving change

CONNECTIVITY

AUTOMATION

ELECTROMOBILITY

2030

IN 2030

Truck accidents are extremely rare

Connectivity and automation will reduce risk accidents

IN 2030

Traffic jams will be a blast from the past

**Night time is
the right time**

Volvo Trucks. Driving Progress

The smart infrastructure

A perspective view of a road stretching into the distance at sunset. The sky is a mix of orange, yellow, and blue. Several wind turbines are visible on a hillside to the left. A large, bright full moon is in the upper right corner. The road has white lane markings that recede into the distance.

IN 2030

Vehicles are not an environmental threat

Great potential for fully electric trucks in cities

Our first hybrid truck for long haul

**Realising the possibilities.
Together.**
