

## How to search for standards

When searching for standards, please go to <http://www.volvogroup.com/en-en/suppliers/useful-links-and-documents/corporate-standards/search-for-standards.html> and following the instructions below.

When searching for a standard, omit the prefix (STD, VCS etc.) and only enter the digits.

To find a specific language version, add a suffix (-sv, -en, -fr, -kor, see table below). Many Volvo standards are English/Swedish bilingual and do not require a suffix.

Company:	Prefix + standards number designation:	Example:
Volvo Group	<ul style="list-style-type: none"> <li>STD &lt;3 digits&gt;-&lt;4 digits&gt; (common with Mack Trucks and Renault Trucks)</li> <li>STD &lt;4 digits&gt;,&lt;1-5 digits&gt; (not common with Mack Trucks and Renault Trucks). For more information on how to search for Renault Trucks and Mack Trucks standards, see information below.</li> </ul>	100-0002 5051,16
	<b>Language versions</b> - For Korean language version: add "kor" after the number. - For French language version: add "fr" after the number. - For Swedish-only version: add "sv" after the number.	100-0002kor 101-0001fr 112-0003sv
Volvo Cars	<ul style="list-style-type: none"> <li>VCS &lt;4 digits&gt;,&lt;1-5 digits&gt;</li> <li>STD &lt;4 digits&gt;,&lt;1-5 digits&gt;</li> </ul>	5023,509 1006,601 <sup>1)</sup>
Volvo CE	<ul style="list-style-type: none"> <li>VCE &lt;4-5 digits&gt;,&lt;1-5 digits&gt;</li> <li>IND &lt;4-5 digits&gt;,&lt;1-5 digits&gt;</li> <li>VBM &lt;4-5 digits&gt;,&lt;1-5 digits&gt;</li> </ul>	27412,201 5080,311 5021,341kor
Renault Trucks	Standard references shall be stated without any separator between the numbers.  <b>English / French versions</b> For English version, add "en" after the number For French version: add "fr" after the number  <b>Searching for Test Methods</b> When searching for Test Methods do not include the "RT" prefix but make sure that the "D" prefix is entered in the search box.  <b>Example</b> To find document RT D30 1769 in English.	00104501en 00104501fr     d301769
Mack Trucks	Enter the complete GS number.	014gs16034

1) When STD standards are revised, they are replaced by a VCS version of the standard (to be used by Volvo Cars).

### **Documents missing?**

Send an e-mail to [Corporate.Standards@volvo.com](mailto:Corporate.Standards@volvo.com) if the standards you are searching for is not available.

### **Material numbers**

If you are searching for a material standard, please note that the material number is not the same as the standard number. Normally, both the standard number and the material number are indicated in the technical documentation provided by the purchasing department. If this is not the case, try to contact the purchasing department in question. If they cannot answer your questions, send an e-mail to [Corporate.Standards@volvo.com](mailto:Corporate.Standards@volvo.com) and indicate which material number you are searching for and from which document the reference is made.

### **Calibration Instructions (KAL) documents**

Enter the STD and KAL prefixes, for example STD KAL 610.10

### **ISO standards, EN standards, IEC standards, and other national or international standards**

These standards have to be purchased from the standards organization issuing the standards, your national standards organization or a company specializing in selling these types of standards. See, for example, [https://en.wikipedia.org/wiki/List\\_of\\_technical\\_standard\\_organisations](https://en.wikipedia.org/wiki/List_of_technical_standard_organisations) for more information on national and international standardization.
