Transport by Jockey – Handling Guideline

In addition to adhering to the regulatory framework outlined in ECG, the following rules must be strictly observed during jockey transportation:

1. **Safety Compliance:** Always adhere to the safety requirements within the compound or yard.
2. **Handover Inspection:** Conduct a thorough handover inspection before departing from the compound or yard.
3. **Dashboard Check:** Inspect the vehicle's dashboard for any warning symbols. If a warning is displayed, notify the dispatch center or site security staff immediately.
4. **Loose Parts:** Ensure all non-attached parts are securely stowed.
5. **Passenger Restrictions:** Transporting passengers is strictly prohibited.
6. **Smoking Policy:** Smoking is prohibited both inside and in close proximity to the truck.
7. **Driver's Seat Protection:** Plastic protection for the driver's seat may be removed during driving but must be replaced upon delivery. Do not remove or damage plastic protection for the bed.
8. **Eating and Drinking:** Eating and drinking in the cab are not permitted.
9. **Driving Conduct:** Drive with care and adhere to traffic regulations.
10. **Brake Distance and Stability:** Note that trucks without superstructure have very low rear axle pressure, affecting brake distance and stability.
11. **Bogie Axel:** If the truck is equipped with a bogie axle, it must be lifted while driving.
12. **Road Construction:** Drive slowly in areas of road construction to avoid chipping.
13. **Convoy Driving:** Avoid driving in convoys. If unavoidable, maintain sufficient distance to prevent stone chipping.
14. **Mechanical Issues:** In case of mechanical problems during transport, contact Volvo Action Service & Transport Operation.
15. **Number Plate:** Ensure the transfer number plate is securely attached without causing damage to the vehicle.
16. **Resting Times:** During resting periods, park vehicles in secured sites belonging to the transport company or in guarded parking/service areas.
17. **Cleanliness:** Leave the truck in a clean condition upon delivery.
18. **Fuel Policy:** Unless otherwise agreed, jockey suppliers should refill the diesel to the same amount consumed.
19. **Professionalism:** Always conduct yourself professionally, remembering you represent Volvo Group.
