We conducted our review in accordance with FAR's recommendation, RevR 8 *Review of remuneration to senior executives of listed companies*. This recommendation requires that we comply with ethical requirements and plan and perform the review to obtain reasonable assurance that the guidelines adopted by the annual general meeting of shareholders have, in all material aspects, been complied with. The review has involved the company's organization for and documentation of matters pertaining to remuneration to senior executives, recent resolutions regarding remuneration and a selection of payments made to senior executives during the financial year. The procedures selected depend on the auditor's judgment, including the assessment of the risk that the guidelines have not, in all material aspects, been complied with. In making this risk assessment, the auditor considers the aspects of internal control relevant to compliance with the guidelines, in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the company's internal control.

We believe that our review provides a reasonable basis for our opinion below.
