Volvo Truck Center Nordic starts distribution of Nissan Trucks

The Nordic wholly owned dealer network of Volvo Truck Corporation and the Nordic subsidiary of Nissan Europe, have agreed on conditions to enable the distribution of three of Nissan's light commercial vehicles through the Volvo Truck Center dealer network in Sweden, Norway, Finland and Denmark. The cooperation includes sales and after sales activities.

The Nissan line up of vehicles to be offered by Volvo Truck Center dealers in the Nordic market will include one van model, the Interstar, and two rigid models, the Cabstar and the Atleon.

“This will strengthen the business of our dealer network since we will be able to offer our customers the complete range of vehicles from the same dealer”, says Ulf Magnusson, Managing Director of Volvo Trucks Business Region Nordic. “The modern product line of Nissan will be a perfect complement to our complete renewed range of FH16, FH, FM, FE and FL trucks”

Volvo Truck Center and Volvo Financial Services will also offer a sales financing package for the new Nissan products.
