World premiere of the new Volvo FMX at Bauma

The world premiere of the new Volvo FMX will take place at the Bauma exhibition in Munich. At 15.00 on Monday April 15, Volvo Trucks will pull the wraps off the truck that takes efficient construction operations to an entirely new dimension.

“With our comprehensive range of specially tailored products and services, the new Volvo FMX is without doubt the market’s best and toughest construction truck. It is packed with innovations that deliver benefits to haulage firm and driver alike,” says Claes Nilsson, President of Volvo Trucks.

The ground-breaking new steering system – Volvo Dynamic Steering – is a new feature that benefits all drivers in all conditions, but its advantages are most noticeable in heavy construction operations at low speeds.

The press conference starts at 15.00 on April 15 at the Volvo stand – Hall C4.
