## Press Information

# AB Volvo publishes Sustainability Report for 2007

**AB Volvo has today published its Sustainability Report for 2007. The Report is available on Volvo Group's website.**

Volvo Group has published environmental reports since 1990 and up until today the Sustainability Report has been a part of the Annual Report. For 2007 the sustainability performance is presented in a separate report, and the composition of the report has been inspired by GRI (Global Report Initiatives).

The report focuses around four main areas:

- Creating value
- The climate issue
- Focus on efficient products
- The most attractive partner

The Sustainability Report is available as a PDF-document for download in English and Swedish.
